

# Loom Knit Magic Mitts

by Charity Windham

These magic mitts are easy, quick, and fun.

## Materials Needed:

12 peg large gauge loom (Knifty Knitter flower loom shown in picture)

Loom pick tool

1 skein of Lion Brand Fun Fur (you will have left overs)

Start with a e wrap cast onto all 12 pegs of loom.

Knit in the round until tube coming off the loom measures 18" long. I used a loose flat knit in the sample pair made in the photograph because I liked how fluffy it made them using only 1 strand of fun fur.

Once your knitted piece is approximately 18" long, you will switch to knitting a flat panel method for 1". Knit 12 pegs, then turn yarn and work the same 12 pegs again in reverse. This will make the opening for the thumb. 1" will be plenty big.

Once you have made your thumb opening, you will continue to knit in the round for another 6" or until piece measures 24" total.

I suggest this bind off: <http://www.youtube.com/watch?v=VOmk2qMBeZI>

This is what my mitts looked like straight off the loom. Kinda crazy, huh?

Now, weave in and cut your ends... then ENJOY!

These really are a one size fits all type of item. I am 5'1" and they fit me. I made my husband who is 6'4" with large hands try them on and they fit him as well.

Feel free to let me know if you have any questions about this pattern. I hope you enjoy them.
