

# MICKEY MOUSE HAT

Charted and adapted for hat pattern by Ikumi Kayama

This pattern was inspired by one of the cast member costumes in Disneyland Park. The Norwegian style snowflake trimmed by tri-circle Mickey head motif was so inspiring that I wanted to knit one for myself, and share it with others. The areas around Mickey heads can be added later using the duplicate stitch technique or worked using fair-isle technique or Armenian technique. The basic hat shape was inspired by “Generic Norwegian Hat” by Adrian Bizilla. Please enjoy this pattern for personal use only.
