

That's My Bag Tag

Design by: Marrisa Brown

That's my bag tag

This is a knitted version of a luggage tag. This would also work great on your child's backpack for easy spotting at school.

This project is a quick knit, a great use of leftovers and highly customizable. Use the tag portion to put initials, duplicate stitch pictures or to practice new stitch patterns.

Worsted weight yarn in bright "spot-able" colors.
Sample was worked in Peaches and Crème worsted weight cotton.
Size 7 dpn's
