Feel free to make them for yourself, friends or charity, but please do not sell finished plushies

Hello and welcome

This is an easy crochet pattern to make a cuddly crochet Matt Smith as the 11th Doctor complete with red fez ^_^ He measures 30cm tall, with an arm span of 25cm (average, will vary quite a bit depending on yarn choice)

Print pages 3-6 double sided with two-pages-per-sheet, and you will have a 1 page portable version of the pattern to take with you. Later pages include details for hair/face etc.

Hope you enjoy creating him, and I would love to see any photos of your finished plushie (Email pixelatedmushroom@gmail.com or upload to Ravelry). Feel free to contact me if you have any worries or questions.

For the latest version of the pattern, re-download it from my [blog](#) or [Ravelry](#)

Cut off leaving a long tail and thread end through loop on hook

Place the hair on the head with the largest loops on the left side of his head as shown above. Sew the part securely to the head using back stitch.

With scissors, cut loops to free the ends of hair all around, but leave a few of the large loops overlapping his right eye non-cut. These will help create his comb-over fringe

Give the strands of hair a little trim at the back to make it more natural

If you made the fez, stuff it lightly and sew on a jaunty angle to Matt's head.

Face

I tried a few options on photoshop – some might be useful. I used black yarn and carefully sewed on the features

Shirt Details

Using MAROON stitch on a bowtie and with back stitch create suspenders up and over the shoulders to cross at the back as shown.

And you're done!!
