

## Knit Scrunchie

Design: SAS Knits It Again

The 90's are back. And so is the Scrunchie!!  
This is a great quick pattern to get familiar with knitting with double pointed needles.  
Knit it with different types of yarn, play with colors, just have fun with it!!

SAS

### Material

I used Phildar Partner 6, but you can use all kinds of yarns. Just make sure the needle size matches the yarn so you can't see the elastic band through the stitches. A bigger needle size makes it a little easier to knit but don't overdo it. A 6mm or US 10 to two needle sizes down will work.
