

## Wovenflame's Doll Slippers

**For 3.8 – 4.3 mm feet** (YoSD and LittleFee) sizes:

Using *dk weight yarn* and 2mm needles, cast on 15 sts.

**1<sup>st</sup> row:** Knit across.

**2<sup>nd</sup> row:** (WS): k5, p1, k3, p1, k5.

**Rows 3 through 15:** Repeat rows 1 and 2, resulting in 6 ridges and ending on WS.

Piece should be approximately 4.6cm (1 ¾”) wide at this point. If you are not achieving this width use larger or smaller needles.

**Rows 16 through 22:** On RS: Knit across.

On WS: k1, p1 across, ending k1.

**Final row:** (K2tog)x4, k1, (ssk)x3.

Break yarn leaving a tail of about 6 inches (15cm). Run yarn end through stitches on needle and pull up to gather. Seam top of slipper to where the pattern changes. Fold the slipper in half lengthwise and seam the back. Tiny purchased pompoms may be applied using fabric glue.

This slipper should fit most YoSD sized dolls and some MSD sized dolls. Slight changes in size can be made by using a larger or smaller needle to affect gauge. Greater changes in size can be accomplished by adjusting the number of stitches cast on (for width) or the number of rows knit (for length) or by using yarns of various thicknesses.

**For 2 – 2.3mm feet** (Fairyland PukiFee and ResinSoul Yu):

Using *laceweight yarn* and 1.2mm needles (US size 0000 or 4-0) follow the same directions stopping the ribbing pattern at row 20 and then finishing as above.

**For 1.5mm feet** (Fairyland Pukipuki and RealPuki):

Using *cobweb weight yarn* (2/36) and 1mm needles (US size 00000 or 5-0) follow the directions for 2-2.3mm feet.

**Have fun!**
