## PT 8433 SCARVES

Scarves can be changed in length or width to suit the individual. Simply remove or add stitches when casting on for width and knit scarf to desired length. Make sure to adjust the quantity to correspond with the changes.

### TENSION

Unlike knitting a garment a tension measurement is not crucial when knitting a scarf. Therefore no tension measurements have been included. Quantities are approximate as they can vary between knitters. Use only Bendigo yarns as specified.

### ABBREVIATIONS

alt = alternate, K = knit, psso = pass slipped stitch over, P = purl, rep = repeat, st/s = stitch/es, sl = slip, tog = together, yfrn = yarn forward round needle, yfwd = yarn forward, yon = yarn over needle.

### FRINGE (Optional)

*Fringes can be added to any of these scarves. Fringes can be worked along the ends of your scarf as follows. Cut lengths of yarn just over twice the required length of the finished fringe. Fold a few strands in half (how many depends on how thick you want the fringe and how close together the knots are) and draw a loop through the edge stitch using a crochet hook. Now draw the loose ends of strands through the loop and pull down lightly to form a knot. Repeat as required at intervals along edge. Trim ends. Note: more yarn will be required if adding a fringe.*
