

This is a small neckwarmer/cowl, with approximately a 20" circumference. It can be made wider by adding multiples of 7 stitches. It can also be knit in different weight yarns to yield different sizes. You will have to experiment since I have only knit this with sport weight yarn. It looks best in solid or hand dyed colors. The pattern tends to disappear in busy colored yarns.

Size 6 16" or 20" circular needles

170 yds. sport weight yarn (more will be needed for a wider or longer cowl)

1 marker

Rnd 7: *P5, K2* around
